## Experience

### Volunteer Editor

Recurse Center Code Words

Feb 2015

[codewords.recurse.com](http://codewords.recurse.com)

Proofread selected pieces for Code Words, a quarterly publication about programming • Collaborated with authors to improve structure, clarity, and flow of content • Assured consistency in grammar and formatting

### Recurse Center Participant

Recurse Center – New York, NY

Jun 2014 – Aug 2014

Focused on self-directed projects to achieve proficiency in JavaScript • Explored functional programming, game development, web applications, machine learning, and networking • Improved code quality via pair programming

### Undergraduate Research Assistant

McGill University – Montréal, QC

May 2013 – Aug 2013

Implemented algorithms in Python to predict cooperation of transcription factor pairs • Parsed large biological datasets and produced basic statistics • Profiled implementations to determine the benefit of multiprocessing

## Projects

### Asteroids game

[github.com/quelledanielle/asteroids](https://github.com/quelledanielle/asteroids)

Programmed an Asteroids clone in JavaScript • Strengthened understanding of prototypal inheritance, references, and mutability • Applied linear algebra to collision detection • Collaborated to implement and debug features

### McGill schedule exporter

[github.com/alexcoco/martlet](https://github.com/alexcoco/martlet)

Extended Martlet, a Ruby client for McGill course information, to export schedules as iCalendar files • Increased knowledge of Internet protocol standards • Contributed to open source software using GitHub for code review

### Local version control system

[github.com/quelledanielle/myvcs](https://github.com/quelledanielle/myvcs)

Created a command line tool for managing project revisions with Node.js • Investigated recursive directory trees, and synchronous versus asynchronous file I/O methods • Gained appreciation for existing version control systems

## Education

### B.Sc. in Computer Science and Biology

GPA: 3.83 – McGill University – Montréal, QC

Sep 2011 – Apr 2015

## Skills

JavaScript, Ruby, Python, Java, HTML, CSS, Git
